EXPERIENCE

City Government of Butuan — Butuan City, Philippines
Senior Full Stack Developer / Systems Architect — May 2026 – Present

- Architected the City's Human Resource Management System (CHRMS) end to end, pairing a React front end with a Laravel REST API to digitize personnel records and HR workflows citywide.
- Designed and collaborated on database schema, API design, and deployment, replacing manual department processes with a single digital system.
- Partnered with HR and department stakeholders to translate paper-based workflows into production features.

Engtech Global Solutions Inc. — Butuan City, Philippines
Application Architect — Oct 2024 – Feb 2026

- Architected scalable application structures for educational and enterprise clients, setting standards for maintainability and performance.
- Reviewed technical designs across concurrent client projects prior to implementation.
- Promoted from Senior Web Developer after two years, having advanced from Junior Web Developer in 2022.

Engtech Global Solutions Inc. — Butuan City, Philippines
Senior Web Developer — 2022 – Oct 2024

- Rebuilt and maintained corporate websites for Engtech Global Solutions and ACLC College of Butuan, improving responsiveness and user experience.
- Delivered backend logic, front-end interfaces, and database integrations in PHP, Laravel, and JavaScript.

Engtech Global Solutions Inc. — Butuan City, Philippines
Junior Web Developer — 2019 – 2022

- Built and maintained School Management System modules spanning enrollment, grading, academic advising, and accounting verification.

Independent Practice — Butuan City, Philippines
AI Systems Architect / Consultant — 2020 – Present

- Architected and operate multi-agent AI systems end to end: MCP (Model Context Protocol) tool servers, agent orchestration on Claude Code and Hermes, agentic workflow design, and scheduled/webhook automation.
- Engineered LLM routing by task severity and cost across Anthropic, OpenAI, and DeepSeek models, cutting spend while holding output quality through evals and approval gating.
- Deployed and served quantized local LLMs (llama.cpp, GGUF) with extended context, adding human-in-the-loop guardrails for externally visible actions.
- Delivered custom full-stack web solutions for ongoing clients alongside independent AI infrastructure work.

ACLC College of Butuan — Butuan City, Philippines
Part-Time Instructor — 2019 – Apr 2021

- Taught IT and programming courses, mentoring students on web development fundamentals and applied projects.

EDUCATION

ACLC College of Butuan — Butuan City, Philippines
Bachelor of Science in Computer Science — 2014 – 2019

- Student Assistant, 2014 – Jul 2019: supported campus IT operations while completing the degree.

PROJECTS

- **CHRMS Human Resource Portal** — city-wide HRMS (Laravel + React REST API) with personnel records, service records, and compliance analytics.
- **Multi-Agent AI Orchestration Platform** — MCP tool servers, multi-agent task dispatch with human-in-the-loop review, severity-based LLM routing, and local model serving on Claude Code and Hermes.
- **Altera Barangay / City App** — local government administration platform for barangay and city-level records.

- **Sigma Accounting System** — accounting and financial verification system for institutional use.
- **Algorand Pera Wallet Integration** — Web3 wallet integration on the Algorand blockchain.

SKILLS & INTERESTS

AI Orchestration: MCP (Model Context Protocol) server development, multi-agent orchestration, agentic workflow design, LLM routing & model selection, tool/function calling, human-in-the-loop orchestration, agent memory & state management

AI Engineering & Architecture: AI systems architecture, LLM application development, prompt & context engineering, structured output (JSON schema), local LLM deployment & quantization (llama.cpp, GGUF), LLM evaluation & observability, guardrails & approval gating, token cost & latency optimization

AI Platforms & APIs: Anthropic/Claude, OpenAI, DeepSeek, OpenRouter, Claude Code, Hermes

Languages (Programming): PHP, JavaScript, TypeScript, SQL, HTML, CSS

Frameworks: Laravel, React.js, Vue.js, Nuxt 4, CodeIgniter, Tailwind CSS

Tools: Git/GitHub, CI/CD, REST API design, database design, workflow automation

Languages (Spoken): English (fluent), Filipino (fluent), Cebuano (fluent)
